Pension Schemes for your paid staff

In October 2012, a new statutory obligation was placed on all employers to have a qualifying pension scheme, and to auto-enrol eligible workers. This duty is being progressively rolled out, and now small employers with less than 30 workers will have to start enrolling their workers from around April 2016.

This is NOT OPTIONAL - all employers will have to offer something. Both employer and worker will have to make compulsory financial contributions into the scheme.

How to get ready for automatic enrolment

This new blog from NCVO Trusted Supplier Lucas Fettes explains what automatic enrolment means for your organisation. It covers what you need to do and how much it is likely to

cost your organisation to ensure you're compliant with legislation.

The report is based on a survey of 800 charities that are working in social welfare which explored the challenges they face and what would help overcome them. The main challenge for 81% of the respondents is securing funding for their organisation, while 63% think it will get harder to secure funding over the next two years.

Tap Water Awards

Grants of between £300 and £3,000 are available to voluntary or community organisations, schools, parish or town councils for projects that significantly reduce their reliance on single-use plastics and the amount of plastic waste.

The funding aims to support projects that develop new solutions to replace pre-existing systems that rely on plastic, that promote the use of tap water, or other related themes. Projects can have a community, local or national impact.

The Tap water Awards will accept applications for projects working solely with children with special needs where it may not be appropriate to involve the wider community.

Organisations wishing to apply are strongly advised to contact info@tapwater.org before applying. Applications can be made at any time. Please see website: <http://www.tapwater.org/grants>
