BE PREPARED FOR WINTER

Common illnesses and minor ailments – Advice from West Lancs Clinical Commissioning Group

- Keep a well-stocked medicine cupboard at home
- Think about contacting NHS 111 or seeing your local pharmacist for advice
- Plan for repeat prescriptions – don't leave it until the last minute to order repeat prescriptions from your surgery. Think about getting connected to Patient Access to make a prescription request. For more information about using Patient Access on the website or using the App, contact your GP surgery.
- Don't forget, as a carer you can have a free Flu vaccination – contact your surgery

In cold weather – Advice from Age UK

- Keep your bedroom at 65°F (18°C)
- Keep bedroom windows closed at night and think about adding layers to your bedding
- Keep your living room at 70°F (21°C). A room thermometer might help you monitor room temperatures
- Remember Food is Fuel; hot drinks and meals to help keep you warm, try to include a variety and aim for five portions of fruit and vegetables per day
- Age UK has a handy recipe booklet called Recipes for a Warmer Winter – its available from Age UK website or phone them on 0800 169 8080
