Data Protection
Lancashire Care NHS Foundation Trust adheres to The Data Protection Act 1998. The Trust will endeavour to ensure that your information remains secure and confidential at all times. For further information regarding data protection please visit the Trust’s website or ask a member of staff for a copy of our leaflet entitled “Sharing Information With Us.”
What is WRAP?

The Wellness Recovery Action Plan (W.R.A.P) is a framework with which people who experience mental distress can develop an effective approach to overcoming symptoms and unhelpful behaviour patterns.

**WRAP**

WELLNESS RECOVERY ACTION PLANNING

Once completed the W.R.A.P becomes a practical support to your wellbeing and recovery journey. The W.R.A.P is designed to be an aid to learn about yourself. What helps and what doesn’t, and how to get progressively more control over your life and experiences.

Workshop structure

**Session 1: Wellbeing and mental health**
- What is the difference between diagnoses and how we feel?
- What Recovery means and what it can look like.
- Setting our own goals and learning outcomes

**Session 2: My experiences of wellbeing**
- What are we managing with
- Planning a strategy
- Living in the solution

**Session 3: Coping mechanisms**
- Triggers and how to work through them
- Wellness toolbox
- Recovery journey goals

**Session 4: Early warning signs and crisis planning**
- What to look out for in ourselves
- What to do to prevent a dip
- Making my voice heard when I am unwell

**Session 5: Social networks**
- What support do I have
- What do I need those supporters to be like
- What is available in the community

**Session 6: Hope**
- Inspirational stories
- Ideas and people to watch
- Opportunities to engage with the community more

What WRAP participants have said

‘The workshops have enabled me to put in place strategies to help overcome some of the difficulties I experience.’

‘Helped me understand that my diagnosis is only one part of me. I am many things other than my diagnosis.’

‘There are no magic bullets. Medication is important, but I have learned not to give all the credit to a chemical. The key to recovery starts with regaining a belief in yourself.’

‘Made me more positive. Do I want to live with the problem or find ways to live in the solution?’
